SUMMARY

Learning and development practitioner with 15+ years of experience shaping learning strategies and programs for technical, professional, and diverse adult audiences across enterprise technology, federal infrastructure, and higher education. Expertise spans adult learning, curriculum strategy, learning experience design, content strategy, and emerging learning technology.

At Appian, led cross-functional learning initiatives spanning developer education, customer and employee enablement, AI, data, and product adoption. Earlier experience includes federal infrastructure training for the National Highway Institute (NHI), instructional staff leadership supporting a Defense Language Institute (DLI) contract, and nearly a decade of university teaching, research, and instructional consulting.

I have a strong record of translating complex business and technical needs into practical, scalable learning experiences. My experience spans strategic planning, research, cross-functional project leadership, SME collaboration, content strategy, and data-informed program improvement. I also apply AI and emerging technologies to learning and content development.

CORE EXPERTISE

Learning Strategy & Leadership: Enterprise Learning Strategy • Adult Learning • Curriculum & Program Development • Learning Experience Design • Learning Standards & Content Strategy • Program Evaluation

AI, Innovation & Technology: AI Enablement • AI-Assisted Learning Development • Digital Learning • In-Product Learning • Video & Multimedia Learning • Scalable Content Systems

Leadership & Collaboration: Cross-Functional Leadership • Project Leadership • SME Partnerships • Stakeholder Management • Team Development • Facilitation • Change & Adoption

Audiences & Environments: Technical & Developer Education • Customer & Employee Enablement • Federal Training • Early-Career & University Learning • Professional Development

PROFESSIONAL EXPERIENCE

APIAN CORPORATION - McLean, VA

Senior Instructional Systems Designer II

Dec 2019 – Sept 2026

Led learning strategy and development for a global enterprise software company, partnering across Product, Engineering, Marketing, Customer Success, and Solution Consulting to help technical and business audiences understand, adopt, and apply complex technology.

- Led learning strategy for Appian Data Fabric, developing curriculum supporting a major platform capability across developer, customer, partner, and internal audiences.
- Built Appian's early generative AI learning programs from the ground up, translating an emerging technology area into practical learning experiences for developers, customers, partners, and internal teams.
- Led cross-functional project teams of 2–3 contributors, coordinating subject-matter experts, reviewers, and production partners from concept through delivery.

- Designed and launched a Process Intelligence workshop program that grew from pilot to onboarding 100+ Customer Success and Solution Consulting employees ahead of a major product release.
- Led a team of 7 through the migration of Appian's course portfolio from Absorb to Skilljar, managing project planning, team onboarding, migration workflows, and quality assurance while developing a scalable migration and testing procedure.
- Expanded Appian's learning ecosystem beyond traditional courses, introducing hands-on developer exercises, Gainsight in-product learning, badging exams, and scalable instructor-led workshops; also established approaches for sourcing learning content for Solution Consultants to use with customers.
- Partnered with Product, Marketing, Customer Success, Solution Consulting, and other stakeholders to align learning priorities with business and product goals and support major platform launches.
- Helped launch the Appian Community YouTube channel for developers as a core team member and later led its content-growth strategy, using YouTube SEO, audience analytics, social promotion, and content experimentation to drive approximately 300% year-over-year growth in 2023 and 200% in 2024; trained colleagues on content optimization and audience-growth practices.
- Owned the ongoing strategy and evolution of Appian Essentials, the company's most-trafficked developer learning course, regularly auditing and updating its content; its video generated 52K+ views in a single year and was adopted by Account Executives for use in customer communications.
- Created learning content supporting Appian AI partner sales accreditation, enabling sales and partner audiences to communicate product capabilities and use cases.
- Applied generative AI tools to research, content development, workflow improvement, and learning-production processes, evaluating practical opportunities to improve both learner and creator experiences.
- Trained colleagues on educational content strategy, YouTube SEO, scripting, and AI-enabled workflows, helping scale effective practices across teams.
- Partnered with university stakeholders on a software-engineering curriculum and learning pilot at SSN University in Chennai, connecting academic learning with practical technology skills.
- Received three national Society for Technical Communication awards, including Best of Show, Distinguished, and Merit, for learning and technical communication work.

EXOSTAR LLC - Herndon, VA

Training Analyst

Dec 2018 – Dec 2019

Supported customer enablement for an enterprise Identity and Access Management platform.

- Developed training guides, webinars, microlearning videos, call-center scripts, and product documentation in partnership with subject-matter experts.
- Led the redesign of customer-facing FAQ resources, contributing to a 40% reduction in support calls.
- Developed standard operating procedures for microlearning video production and trained colleagues on video-development best practices.
- Translated complex product and support information into clear, practical resources for customer-facing teams and users.

NATIONAL HIGHWAY INSTITUTE (NHI) - Arlington, VA

Instructional Systems Designer

Apr 2018 – Dec 2018

Designed learning for the Federal Highway Administration's National Highway Institute, supporting training for professionals working in transportation and infrastructure.

- Designed and updated web-based and instructor-led federal training programs for adult professional audiences.
- Translated technical and infrastructure-related content into effective learning experiences in partnership with subject-matter experts.

- Facilitated course reviews, pilot sessions, and technical walkthroughs, incorporating stakeholder feedback to improve course quality and learner experience.
- Designed learning where accuracy, clarity, practical application, and consistency were critical to professional performance.
- Developed direct experience supporting learning within a federal infrastructure and transportation environment.

WASHINGTON LANGUAGE CENTER (WLC) - Arlington, VA

Training Supervisor

Apr 2017 – Jan 2018

Supervised instructional staff supporting a Defense Language Institute contract, with responsibility for instructional quality and professional development.

- Supervised up to 12 + instructors at any given time, supporting consistent instructional quality and program delivery.
- Designed and delivered professional development workshops for instructional staff.
- Identified instructor development needs and strengthened teaching practices through coaching and targeted professional development.
- Balanced day-to-day operational requirements with longer-term instructional quality and staff development.

UNIVERSITY of MICHIGAN - Ann Arbor, MI

Instructor & Teaching Consultant

Sept 2006 – May 2014

Combined university teaching, instructional consulting, and academic research, developing deep expertise in adult learning across diverse backgrounds, experience levels, and learning environments.

- Designed and delivered university courses using technology-enhanced and learner-centered approaches.
- Served as an instructional consultant through the Center for Research on Learning and Teaching (CRLT), supporting faculty with course and teaching strategies.
- Mentored incoming instructors and shared effective teaching practices.
- Led interdisciplinary research projects and presented findings at 12 national academic conferences.
- Received the Outstanding Graduate Instructor Award and competitive research and fellowship support.

EDUCATION

Ph.D. in Slavic Languages and Literatures, University of Michigan

M.A. in English, University of Idaho

B.A. in German and English / Foreign Language Education, Herzen University, Saint Petersburg
